

Drawing with Color

Second Semester
Academic Year 2020/21

ELIGIBLE STUDENTS:

Rising 7th -12th graders: How to handle colored drawing media is the intent of this class. While it is not necessary, it is helpful for students to have experience in basic drawing techniques. Students with previous experience in drawing will be able to work at their levels of skill. A sense of wonder, creative courage and perseverance are beneficial postures for flourishing in this course.

Please note: The instructor will be providing rich and robust feedback/critique constantly, but the class is ungraded and parents can make the final decision about what grade to assign to the course.

DRAWING WITH COLOR: COURSE DESCRIPTION:

The aim of this course is to start building students appreciation and understanding of color through dry media drawing tools. First, we will allow ourselves time to explore and delight in this complex, multi-faceted art element. We will examine the formal elements of color – how colors relate to each other - as well as the psychological effects and symbolic uses of color throughout history.

After experiencing some theories of color, students will begin learning to handle colored pencils, oil pastels and chalk pastels. Through demonstrations, personal instruction and exercises, students will explore different subjects/compositions, textures, papers and application techniques suitable for each unique medium. Students can expect to complete at least 3 finished drawings. Students will be encouraged to practice exercises taught in class and may need to finish exercises not completed during class time. However, students **should not** work ahead on extended projects between classes unless instructed to do so.

Along with hands-on studio work, students will participate in regular class critiques, creating a forum for the group to constructively collaborate and discuss creative outcomes. Offering work for public exhibition is an important part of the creative process. It is our hope that we will be able to display work from this class to each other and the broader SA community through an online/webpage gallery.

Students can also expect on-going dialogues about art in history, the Christian imagination in relationship to faith and the arts and the role of the arts in the church. The hope of the instructor is that through engagement in the class, students will be brought to a deeper appreciation of the visual world and the creative Love of our Maker.

STUDENT ACADEMIC EXPECTATIONS

Students will be encouraged to:

- Explore formal color theory and the psychological/symbolic use of color.
- Experience and control a variety dry color drawing media.
- Learn and practice safe and responsible use of art media, equipment and studio space.
- Explore and develop personal concepts in creative expression.
- Create engaging compositions using art elements including line, value, texture, space, shape, form, and depth.
- Develop and utilize specialized vocabulary in relationship to color, drawing and visual art in general.
- Engage in collaborative discussion that enhances understanding of their work as well as the work of others.

STUDENT CONDUCT EXPECTATIONS

Students will be encouraged to:

- Care for themselves, their peers, and their supplies as stewards of God's creation (be and do the good).
- Inquire into the discipline asking questions in order to arrive at the truth (seek the truth).
- Reflect upon and pursue excellence in order to make good use of their gifts (make the beautiful).

STUDENT EVALUATION: GRADING

The instructor will be providing rich and robust feedback/critique constantly, but the class is ungraded and parents can make the final decision about what grade to assign to the course. To add in that process I can assign the following grades to your student's level of achievement: *magna cum laude* (with great praise); *cum laude* (with praise); *satis* (sufficient, satisfactory) and *non satis* (not sufficient).

Ideally, every average student working diligently should do praiseworthy work (*cum laude*). Those who excel beyond this expectation will be the *magna cum laude* students. Students who do adequate but not praiseworthy work will be designated *satis*. *Non satis* means lacking sufficiency or adequacy.

THE VIRTUAL CLASSROOM:

We will be using the free online “virtual classroom” software provided by Zoom, one of the leading companies that provides such software. The virtual classroom will provide students with interactive audio, text chat and an interactive whiteboard in which texts, diagrams, video and other media can be displayed and analyzed. We will provide students with a link (via email) that will enable students to join the virtual classroom.

Specific information regarding the technology used by Scholé Academy (including required technology) can be found by visiting the [Technology in the Classroom](#) section of the Student Parent Handbook.

ABOUT THE INSTRUCTOR:

Kim Williams is trained as both artist and educator, holding a Bachelor of Science in Art Education and an Associate Degree in Christian Education. She has taught in many contexts including elementary, middle and high schools, daycare centers and in parish ministry. For seven years she taught at Cair Paravel Latin School, a private classical Christian school, where she designed the K-6 art curriculum and developed a passion for classical education and writing curriculum. When not teaching others, Kim turns to one of the several mediums she has used over the years for her own art, from oil paint to charcoal, pastels to printmaking. She and her family currently reside in Wayne, Pennsylvania.
