Personalized Services for Students with Learning Differences

At Scholé Academy we firmly believe that classical education is the best education for all students, even if it is delivered or received in unique ways. We offer services delivered by a Special Needs Instructor (SNI) supporting students who have been diagnosed with Specific Learning Disorders or those who are seeking a diagnosis.

We serve students with Specific Learning Disorders (SLDs) or who are seeking diagnosis. dyslexia, ADHD, dyscalculia, dysgraphia, and processing deficits. Our program involves families working closely with a SNI to determine a correct scope of services to support the student and their experience with Scholé Academy.

We can serve students who,

- have difficulty reading (e.g., inaccurate, slow, and only with much effort)
- have difficulty understanding the meaning of what is read
- have difficulty with spelling
- have difficulty with written expression (e.g., problems with grammar, punctuation, or organization)
- have difficulty understanding number concepts, number facts, or calculation
- have difficulty with mathematical reasoning (e.g., applying math concepts or solving math problems)
- have academic skills that are substantially below what is expected for the child's age and that cause problems in school, work, or everyday activities.

Please note: The services provided through our Center for Students with Learning Differences are not intended to meet the standards of or fulfill any state's requirements. The services provided here are intended to be used as a helpful supplement and are provided to parents who are looking for an alternative to, or an addition to, state services.

Personalized Instruction through a Full Course of Study

At Scholé Academy we value the benefits of online learning and are always open to exploring how we can support other schools and co-ops when a mutually beneficial solution might be a good option. On a case by case basis, we are often asked if we are able to support schools and co-ops in the classical tradition through contracting with SA Instructors for teaching assignments. Most of the time, schools/co-ops are interested in securing a Scholé Academy instructor to host an exclusive course for their private group.
