There are Great Books, but are there Great Movies? What makes a movie more than just entertainment? What goes into a film that makes it memorable and meaningful? Join me in exploring these questions as we consider films both technically and thematically. Students will learn to ask critical questions of each film: "Is it true? If so, in what way? Is it beautiful? If so, in what respect? Is it good? If so, how?"

Eligible Students: Grades 7-12
